EXPLANATION OF STATISTICS

The following pages provide statistical information on the 2008-2009 TST enrolment. In some cases, we have also provided statistics from the previous five years to chart the trends in enrolment. Data were taken from the University of Toronto's student records database, ROSI (Repository for Student Information). This information is provided numerically as well as visually to show the breakdown of information. The tables and figures were prepared by Natasja VanderBerg, Coordinator of Academic Services and Registrar, TST. The tables and figures fall into one of four categories:

1. Teaching Activity (teaching contributions of colleges and departments and student registrations)
2. Enrolment (full-time equivalent and head count enrolment over the past five years)
3. Demographics of Students (age, gender, part time/full time status, domestic/international)
4. Admissions (broken down by program and geographic origin)

In previous years, we were able to include preliminary enrolment data for the year in which the report was presented based on September registrations. However, due to the timing of the Annual General Meeting, September registration data is not yet available and thus we are unable to provide projections for 2009-2010. We are able, at this time, to provide Summer 2009 data, which is available on the next page.

TEACHING ACTIVITY: (Table 1, 1A & 1B, Figures 1-4)

- Table 1 on "Teaching Activity by Departments and Colleges" reports how many course registrations occurred in the courses offered by colleges and departments. Tables 1A and 1B are included for the first time this year, and provide detailed information about teaching and cross-registrations.
- Figures 1 and 2 present trends over the last five years in the teaching contributions of the member colleges. Figure 3 presents the relative teaching contribution of departments shown by course registrations (Biblical, Historical, Pastoral, Theological, Field Education and Doctor of Ministry).
- Figure 4 shows the percentage of courses taken by students that are offered within their home college, within their broader tradition, and outside of their broader tradition.

ENROLMENT: (Tables 2-4, Figures 5-8)

- Table 2 presents a detailed view of FTE (Full-Time Equivalent) student enrolment by TST college. The terms eligible and ineligible refer to whether or not the student's registration generates entitlement for government funding.
- Table 2A presents the same data as Table 2, except that it shows the BIU ("Basic Income Unit") count, reflecting the greater weight for ThD and ThM for deriving government funding for eligible students.
- Table 3 presents the same enrolment as Table 2, except that it shows enrolment by head count rather than FTE.
- Table 4, Analysis of 2008-2009 Enrolment Data, shows student registrations by college and program.
- Figure 5 provides an overall picture of enrolment in TST over the past five years.
- Figures 6, 7 and 8 report on FTE enrolment patterns by college over the past five years, for Advanced Degree (Figure 6), Basic Degree (Figure 7) and all programs (Figure 8).

DEMOGRAPHICS OF STUDENTS: (Figures 9-12)

- Figure 9 shows the average age of students in each program of study in the current year.
- Figure 10 shows the percentage of female and male students at the basic degree and advanced degree levels over the last five years.
- Figure 11 shows the percentage of part-time and full-time students at the basic degree and advanced degree levels over the past five years.
- Figure 12 shows the proportion of domestic students vs. international students, and shows the country of citizenship of the current international students.

ADMISSIONS: (Figure 13 & 14)

- Figure 13 shows the head count for admissions into each program over the past five years.
- Figure 14 shows the geographical origin of the students admitted into programs in 2008.

CONVOICATIONS

Regis College, St. Michael's College and St. Augustine's Seminary held graduation ceremonies in November 2008. Emmanuel College, Knox College, Trinity College and Wycliffe College held graduation ceremonies in May 2009. Degrees were awarded as follows:

Degree	FALL 2008				Spring 2009					Annual Total

* The MA and PhD degrees are awarded by the University of St. Michael's College and are not conjoint degrees. Of the 12 MAs awarded, 3 were conferred on students of Regis, 6 St. Michael's, 2 Trinity and 1 Wycliffe. Of the 12 PhDs awarded, 3 were conferred on students of Emmanuel, 6 St. Michael's, and 3 Wycliffe.

SUMMER REGISTRATIONS

During the 2009 Summer Session there were 66 courses (73 TST Credits) offered through TST colleges (excluding Field Education and Reading & Research courses). The final enrolment count of summer courses by college is as follows:

College	Enrolment (Weighted Enrolment)*	# of Courses (Credits)
Emmanuel	75	5 (5)
Knox	71 (80)	5 (6)
Regis	41 (53)	4 (5)
St. Augustine's	55	7 (7)
St. Michael's	94	12 (12)
Trinity	54	9 (9)
Wycliffe	77	9 (9)
TST (DMin)	55	5 (5)
Affiliates	1	1 (1)
TIPE	21 (42)	3 (6)
TOTAL	544 (586)	60 (66)

* Each semester (H) course enrolment is counted once and each Y course enrolment is counted twice.

() The number of courses appearing within brackets reflects the TST credit count for each college. Each semester (H) course is worth one TST credit and each Y course is worth two TST credits.

Trend from 2007 - 2008 to 2008 - 2009:

The enrolment level remained steady between 2007-2008 and 2008-2009. The total head count in 2007-2008 was 1531 while 2008-2009 experienced a very slight increase with 1573 students enrolled. The net increase was 2.745% with most of the increase at the BD level. The special student category experienced the largest increase, with 335 students in 2007-2008 and 379 students in 2008-2009.

FIGURE 1

**College Teaching Contribution as Percentage of Whole
Advanced Degree**

Teaching is measured by the course enrolments of the courses (including Research & Reading courses) offered by each college and the graduate committee participation provided by each college. 13.5% of the teaching was done by other units, mostly within the Doctor of Ministry program at the Toronto School of Theology.

(Data for this figure and Figure 2 were taken from college totals shown on Teaching Activity Reports in Table 1A and 1B.)

FIGURE 2

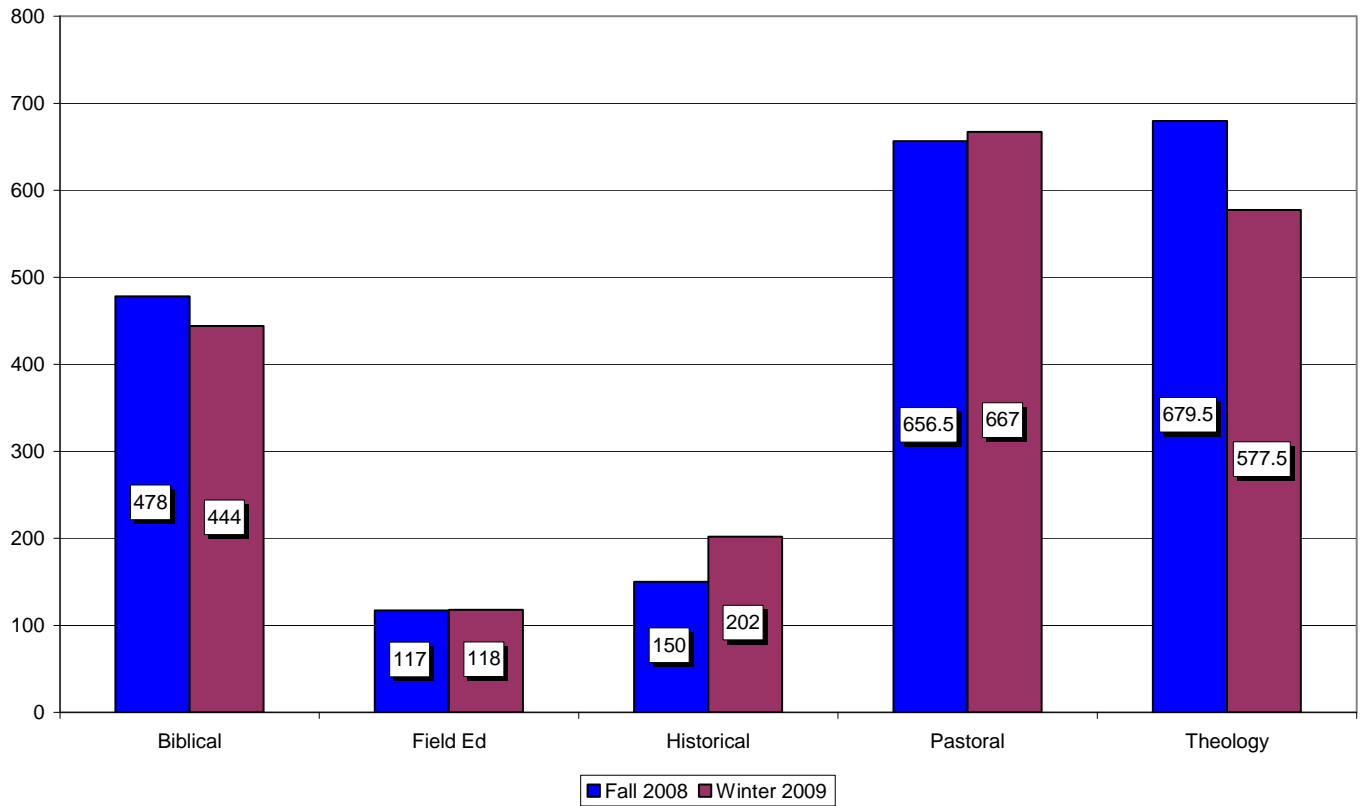

**College Teaching Contribution as Percentage of Whole
Basic Degree**

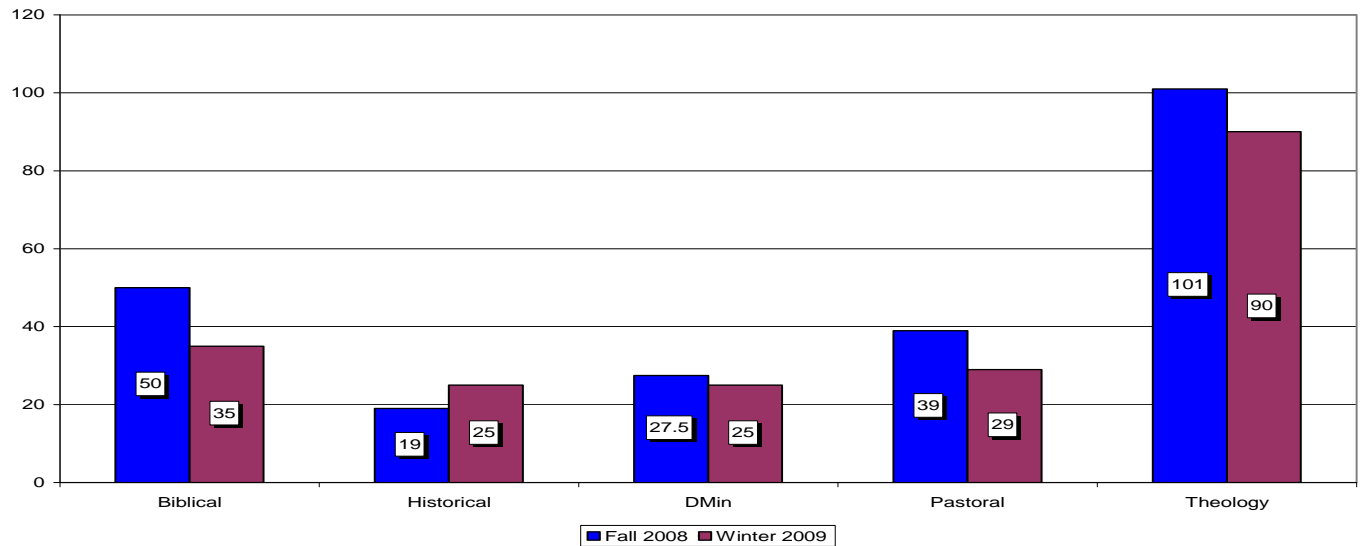

Teaching is measured by the course enrolments of the courses (including Research & Reading courses) offered by each college.
2.5% of the teaching occurred outside the member institutions in 2008-2009.

FIGURES 3 a & b

2008-2009 Teaching by Department Basic Degree

Advanced Degree

The number of course registrations in each department is shown for Fall 2008 and Winter 2009. Y courses which span both terms are counted once in each term.
